EDUCATION

Ganpat University, Mehsana India
Diploma, Information Technology ***CGPA: 8.52*** *2021-2024*

Ganpat University, Mehsana India
Bachelor of Technology, Information Technology ***CGPA: 7.76*** *2024-2027*

PROJECTS

Modern Creative Agency | *HTML5, CSS3, JavaScript, GSAP, Locomotive Scroll, ScrollTrigger*

- Developed a high-performance, visually immersive landing page for a creative agency, focusing on smooth user experience and interactive storytelling.
- Implemented complex scroll-based animations and parallax effects using GSAP and ScrollTrigger, enhancing user engagement.
- Integrated Locomotive Scroll for smooth kinetic scrolling, ensuring a premium feel across high-resolution displays
- Executed a mobile-first responsive design strategy, ensuring 100% cross-browser compatibility and seamless performance on all devices.
- Designed a modern UI with a focus on typography and whitespace, utilizing advanced CSS techniques like Flexbox, Grid, and custom animations.

Demo: http://modern-creative-agency.vercel.app/

Duo Studio Inspired Landing Page | HTML5, CSS3, JavaScript, GSAP, Locomotive Scroll

- Developed a visually immersive, scroll-driven landing page inspired by Duo Studio, focusing on high-end interactive storytelling and premium aesthetics.
- Implemented buttery-smooth kinetic scrolling using Locomotive Scroll and integrated GSAP ScrollTrigger for complex, scroll-bound animations and parallax effects.
- Engineered custom cursor interactions and dynamic hover-preview effects for a highly engaging and tactile user interface.
- Optimized performance for media-heavy sections (background videos and reels), ensuring fast load times and seamless playback.
- Executed a fully responsive, mobile-first design with a custom navigation menu, ensuring a consistent "boutique" feel across all device sizes.

Demo: https://duo-studio-landing.netlify.app/

PRIT_MODERN.DEV — Futuristic Personal Portfolio | React.js, GSAP, Framer Motion, Tailwind CSS

- Architected a high-performance, cyberpunk-themed developer portfolio using React.js and Vite, focusing on high-end aesthetics and seamless user transitions.
- Engineered a sophisticated animation system using GSAP ScrollTrigger and Framer Motion, including a velocity-based custom cursor with particle trails and interactive project case studies.
- Developed a terminal-style contact interface integrated with Google Apps Script, enabling automated data logging to Google Sheets and real-time email notifications.
- Implemented a dynamic theme accent color switcher and a pro-level mobile-responsive menu, ensuring a consistent premium experience across all screen resolutions. Demo: https://pritdev.netlify.app/

LandAssist AI: Smart Land Registry System | React.js, Node.js, MongoDB, Google Gemini AI, Framer Motion, Tailwind CSS

- Developed a secure, AI-powered land registry and document analysis platform, focusing on automated verification and seamless user experience.
- Implemented AI-driven OCR and metadata extraction using Google Gemini AI, enabling efficient processing of regional land records such as Index-II and 7/12 documents.

- Integrated a real-time fraud detection and risk assessment engine to identify forged documents and duplicate ownership claims during transactions.
- Executed a scalable full-stack architecture with a persistent split-screen AI assistant, providing continuous real-time voice and chat guidance throughout workflows.
- Designed a modern, interactive UI with Framer Motion animations, smart mapping integration, and automated legal drafting tools for enhanced usability and data visualization.
- Repository: GitHub Repository

Technical Skills

Frontend Development: React.js, TypeScript, JavaScript (ES6+),Python, HTML5, CSS3, Tailwind CSS, Bootstrap.
Creative UI & Animations: GSAP (GreenSock), ScrollTrigger, Locomotive Scroll, Responsive Web Design.
Backend & Databases: Node.js, Express.js, REST APIs, MySQL, MongoDB, PHP.
Workflow Automation: n8n (Automation & API integration).
Programming Languages: TypeScript, JavaScript, Python.
Tools & Platforms: Git, GitHub, VS Code, Vercel, Postman (API Testing).
Relevant Coursework: Operating Systems(OS), Database Management Systems(DBMS), Object-Oriented Programming(OOPS)

Certifications

- Python with Django Internship, Brainybeam Technologies (June 2023)
- Web Development (ReactJS) Workshop, Ganpat University (April 2023)

Events & Achievements

- Event Coordination – Convergence 2025: Successfully coordinated the "CS-GO Gaming Event" at Convergence 2025, a National-Level technical symposium hosted by Ganpat University. Managed technical requirements and participant brackets for a seamless tournament execution.

- Skill India Cloud Certification: Completed a foundational Cloud Computing course at Ganpat University under the Skill India initiative, gaining exposure to cloud infrastructure and virtualization.

- React.js Workshop: Attended an intensive hands-on workshop on React.js organized at Ganpat University, focusing on component-based architecture and building dynamic user interfaces.
