SUMMARY

Frontend Developer with **3+ years** of experience building **React** and TypeScript applications focused on real-time, **high-traffic** systems. Experienced in performance optimization, state management, and building scalable UI systems for live event platforms.

SKILLS

Frontend : React, TypeScript, JavaScript (ES6+), Next.js, Angular, HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Bootstrap

State Management & Performance : Redux, Redux Toolkit, Context API, Code Splitting, Lazy Loading, Memoization, Virtualization, Core Web Vitals

APIs & Backend : REST APIs, Node.js, Java, Spring Boot, MySQL, Authentication, OAuth

Tools & Platforms : Git, GitHub, Vite, Webpack, Babel, Jira, Postman, Figma, Webflow

PROFESSIONAL EXPERIENCE

Frontend Developer (Product & Client Work), *Remote*

May 2023 – Present | India

- Delivered production-grade web applications for **8+ international clients**, improving performance and maintainability across high-traffic platforms.
- Improved **Core Web Vitals** and page load performance by **25-35%** through code splitting, lazy loading, and image optimization.
- Built a reusable React + TypeScript component library of **25+** UI components used across multiple modules, improving UI consistency and reducing redundant frontend effort by **~25-30%**.
- Integrated **10+ REST APIs** and implemented Redux state management for complex workflows, improving data consistency and reducing UI state issues.

Frontend Developer, *Sportz Interactive*

Jul 2021 – Apr 2023 | Mumbai, India

- Developed and scaled **real-time** sports platforms serving **1M+ monthly users** during live events with high-concurrency traffic.
- Designed **React + Redux** architecture for live match workflows and real-time UI updates under heavy load.
- Optimized frontend performance under live-event conditions, reducing initial load time by **30%** using lazy loading, asset optimization, and efficient rendering strategies.
- Implemented **responsive and accessible UI** standards, improving cross-device compatibility and usability across major browsers.

Frontend Developer, *Fasy.io*

Aug 2020 – Jan 2021 | Mumbai, India

- Led** frontend development from design to deployment using **React**, Tailwind CSS, and Material UI, delivering production-ready features across the application.
- Integrated **Socket.io** real-time chat supporting **50+** concurrent users, improving live customer support and engagement.
- Implemented unit and integration testing using **Cypress**, increasing test coverage and reducing production defects by **15%**.

Fullstack Developer, *Capgemini*

Jan 2020 – Jun 2020 | Pune, India

- Built and delivered enterprise-grade web applications using **Angular** and **Spring Boot**, improving system reliability across enterprise modules.
- Developed and integrated **RESTful APIs** using Spring Boot, enabling secure and scalable backend services.
- Optimized **MySQL** queries and backend logic, improving application response efficiency and data consistency across core workflows.

PROJECTS

IPL/WPL Match Center

Built frontend for **IPL/WPL Match Center** handling **real-time live scores** and match data, optimized for high-concurrency traffic supporting **50K+ users during live events**.

FIH Sports, *International Hockey Federation*

Developed dashboards for **FIH** events with live stats and fixtures, supporting **20K+ users with smooth performance under load**.

EDUCATION

Bachelor of Technology in Computer Science,

Mittal School of Science (LPU)

Aug 2016 – Aug 2020 | Punjab, India
