PROFESSIONAL SUMMARY

Results-driven Software Engineer with 6+ years of expertise in full-stack web development, specializing in PHP, React, and MySQL. Proven track record in product-based environments, leading Agile teams and delivering scalable enterprise solutions. Proficient in modern development practices including Docker, CI/CD, AI-assisted development, and code optimization. Strong cross-functional collaborator with experience across food-tech, property management, and e-commerce sectors.

TECHNICAL SKILLS

Programming Languages: PHP (Core PHP), JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React, Laravel, CodeIgniter, jQuery, Bootstrap

Database & Tools: MySQL, Git, Docker, Linux, Cursor AI, REST APIs

Development Practices: Agile/Scrum, Code Review, TDD, CI/CD, Version Control, PR Reviews

Core Competencies: Software Architecture, Performance Optimization, Security Best Practices, Technical Leadership

PROFESSIONAL EXPERIENCE

Software Engineer

April 2024 – Present

Entrata India

Pune, Maharashtra

- Design and develop scalable application modules for enterprise property management software using Core PHP, React, JavaScript, HTML, CSS, and MySQL in a product-based environment
- Lead Agile Scrum ceremonies including sprint planning, daily stand-ups, and retrospectives, ensuring on-time feature delivery and team alignment
- Leverage Cursor AI for code optimization, refactoring, and debugging, increasing development velocity and code quality
- Architect and implement new product features with focus on performance, security, and scalability while enhancing existing functionality
- Manage application deployments using Docker in Linux-based environments and maintain robust CI/CD pipelines
- Conduct comprehensive code reviews and PR reviews, mentoring team members and enforcing coding standards
- Develop and maintain test cases ensuring high reliability, functionality, and smooth production deployments
- Collaborate with cross-functional teams to analyze requirements and deliver efficient, scalable technical solutions

Project Member - Engineering

June 2023 – February 2024

Curefoods (EatFit)

Bengaluru, Karnataka

- Engineered backend solutions for EatFit's high-traffic food ordering platform serving 10,000+ daily orders
- Optimized database queries and application performance, reducing page load times and improving user experience
- Implemented payment gateway integrations and order management systems using PHP and MySQL
- Collaborated with product managers and designers to deliver customer-centric features within sprint timelines

Software Engineer

March 2022 – May 2023

Masalabox Food Network Pvt Ltd (Curefoods)

Bengaluru, Karnataka

- Developed RESTful APIs and microservices for food delivery platform using PHP, enabling seamless third-party integrations
- Implemented security best practices including data encryption and PCI-DSS compliance for payment processing
- Built real-time order tracking and notification systems, enhancing operational efficiency
- Participated in Agile development cycles with sprint planning, code reviews, and continuous deployment practices

PHP Developer

November 2021 – March 2022

BizHawkz IT Solutions Pvt Ltd

Faridabad, Haryana

- Developed custom e-commerce solutions and CMS platforms for multiple clients using PHP, MySQL, and JavaScript
- Performed code refactoring and optimization, improving application performance by implementing best practices
- Managed version control with Git and collaborated on concurrent projects in fast-paced environment

Web Developer

June 2019 – November 2021

Next Learner

Delhi

- Designed and developed responsive web applications using PHP, HTML5, CSS3, and JavaScript frameworks

- Created dynamic content management systems with database-driven architecture and admin panels
- Maintained and upgraded legacy applications, providing ongoing technical support and feature enhancements

Technical Support Engineer

December 2017 – May 2019

Sygnific RD Solutions

Noida

- Provided Level 2 technical support, resolving complex software issues and maintaining 95%+ customer satisfaction
- Collaborated with development teams to identify bugs, document solutions, and improve product functionality

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2011 – 2015

Roorkee Engineering and Management Technology Institute

Muzafarnagar, UP

CERTIFICATIONS

PHP Certification
