PROFESSIONAL SUMMARY

Full Stack Web Developer with experience in React.js, Next.js, Node.js, MongoDB, and MySQL. Skilled in developing responsive web applications, frontend Ul development, backend integration, REST API integration, and database management. Passionate about building scalable and user-friendly applications.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js

Backend: Node.js

Database: MongoDB, MySQL

Programming: Java (Basic)

Tools & Concepts: Git, GitHub, REST APIs, Responsive Design

PROFESSIONAL EXPERIENCE

Corepix — Web Developer 08/2023-Present

- Developed and maintained responsive web applications using React.js and Next.js.
- Integrated backend services and REST APIs using Node.js.
- Created reusable Ul components and improved website responsiveness across devices.
- Designed user-friendly interfaces and optimized application performance.

Maxgen Technologies — Web Developer Intern 3 Months

Contributed to the development of a Restaurant Management System.

- Assisted in frontend development tasks using modern web technologies.
- Worked on database integration and application testing.

PROJECT EXPERIENCE

- Built SEO-friendly web applications using Next.js with server-side rendering and optimized routing.
- Developed reusable and responsive Ul components using React.js and JavaScript.
- Integrated backend APIs using Node.js for dynamic data rendering.
- Implemented filtering, search functionality, dynamic routing, and metadata generation.
- Designed modern responsive layouts for mobile and desktop applications.
- Optimized application performance using code splitting, lazy loading, and component reusability.
- Integrated third-party REST APIs with authentication, error handling, and data transformation.
- Implemented React Hooks and state management for efficient data flow and maintainable applications.
- Enhanced SEO using SSR, dynamic metadata generation, and optimized routing in Next.js.
- Debugged frontend issues and improved application stability and performance.
- Worked with MongoDB and MySQL databases, implementing CRUD operations and optimizing queries.
- Possess basic knowledge of CI/CD pipelines and deployment workflows using Jenkins and GitHub for project integration and automation.
- Have basic knowledge of Python and experience working with Linux servers for application deployment, server management, and project hosting.

EDUCATION

Bachelor of Information Technology – Software Engineering

Gujarat Engineering College (GEC), Bhavnagar, Gujarat | CGPA: 7.76 | 2019-2023
