PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience delivering scalable, high-performance web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and SQL. Experienced in building AI-powered applications, real-time systems with Socket.IO, secure REST APIs, role-based admin dashboards, and e-commerce platforms. Proven ability to own the complete development lifecycle—from requirement analysis and architecture to deployment, SEO optimization, and client delivery.

TECHNICAL SKILLS

Frontend : React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, GSAP, Framer Motion
Backend : Node.js, Express.js, REST API Design, Socket.Io,
Databases : MongoDB, SQL
Auth & Security : JWT, Role-Based Access Control (RBAC), Bcrypt
Deployment : Hostinger cPanel, Vercel, Netlify, Render
AI & Tools : Cursor IDE, Antigravity, ChatGPT, Claude, Git, GitHub, Postman

EXPERIENCE

AdRyter — Full Stack Developer

Jan 2025 – Present |Gwalior, M.P.

Startup - Business Websites · E-Commerce · CMS · Real-Time Systems · Admin Dashboards

- Independently designed and developed 5+ production-grade full-stack web applications using React.js, Node.js, Express.js, MySQL, and Tailwind CSS, handling requirement gathering, database design, REST APIs, and deployment.
- Built feature-rich admin dashboards with role-based access control, enabling complete management of users, products, orders, inventory, content, and business operations from a single interface.
- Developed real-time applications using Socket.IO, including live lead management, instant notifications, and real-time data synchronization to improve operational efficiency.
- Managed end-to-end project delivery, including client communication, SEO optimization (Next.js SSR, metadata, structured data), cPanel hosting, domain/DNS, SSL configuration, and post-deployment maintenance.

Mobzway Technologies — Software Engineer Intern

May – Aug 2024 | Remote

Product Company - Node.js · Express.js · MongoDB

- Engineered and optimized RESTful APIs using Node.js, Express.js, MongoDB, and Firebase, implementing secure authentication, real-time database operations, and scalable backend services.
- Collaborated with senior engineers in an Agile environment, contributing to backend architecture, API integration, debugging, code reviews, technical documentation, and Git-based version control.

Projects

Adryter — React.js · Node.js · Express.js · SQL · Socket.io | **Live** , **Live2**

- Designed a full-stack agency platform featuring real-time lead capture, a dynamic Blog CMS, and a comprehensive admin dashboard, successfully deployed to production and actively maintained.
- Implemented Socket.IO-based real-time lead notifications and an SEO-optimized content architecture, enabling non-technical staff to manage and publish website content independently after deployment.

PedNeuro — Next.js · Node.js · MongoDB · JWT Auth | Live

- Healthcare platform for a pediatric neurology practice: JWT authentication, RBAC, secure data handling, and SEO- optimized medical content delivery.
- Privacy-first architecture designed for sensitive use case; delivered responsive, fast-loading pages with Next.js SSR

Kiddy's Corner Public School — React.js · Node.js · Express.js · SQL · JWT Auth | Live

- Engineered and deployed a responsive school management website with dynamic content management, admission information, and contact enquiry features using React.js, Node.js, Express.js, and SQL.
- Built secure backend APIs, integrated SQL database, and managed production deployment on cPanel with domain, SSL, and server configuration.

Shri Radhe Collection— React.js · Node.js · Express.js · SQL · NimbusPost | Live

- Built a full-stack e-commerce platform with product catalog, shopping cart, order management, and secure REST APIs using React.js, Node.js, Express.js, and SQL.
- Integrated NimbusPost Shipping API for automated shipment creation, order tracking, and logistics management, and deployed the application cPanel with SSL and DNS configuration.

AdRyter AI Commerce — React.js · TypeScript · Node.js · Express.js · Gemini Pro AI | Live

- Created an AI-powered e-commerce platform using React.js, TypeScript, Node.js, and Express.js, integrating Google Gemini Pro AI to enable voice-based product search, filtering, navigation, recommendations, and an intelligent conversational shopping experience.
- Designed scalable REST APIs, authentication, and backend architecture, delivering real-time AI interactions, seamless user experience, and a production-ready full-stack application optimized for performance and usability.

Education

Bachelor of Computer Applications (BCA) — ITM University, Gwalior (M.P.) 2023 – 2026

Master of Computer Application (MCA) — ITM College, Gwalior (M.P.) 2026 – 2028
