EXPERIENCE

Web Developer Intern — Insync, Ahmedabad *Aug 2023*

- Developed and deployed interactive web components using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility.
- Implemented a fully functional Light/Dark mode toggle and built responsive, mobile-first pages.

Web Development Intern — Inamigos Foundation *Jun 24 – Jul 7, 2026*

- Built a personal developer portfolio and a full business website, and conducted website analysis with reports on performance, structure, and UX.

PROJECTS

Interactive Stock Screener *React 18, Next.js 14, TypeScript*

- Built a full-stack financial dashboard with real-time WebSocket data simulation, virtual scrolling, and column-level filtering.
- Implemented strict TypeScript type safety and achieved full test coverage with Vitest; deployed on Vercel.

Student Dashboard *React, Next.js, Supabase*

- Built a front-end dashboard connected to Supabase for data storage and retrieval, with a clean, component-driven UI.

3D Creative Portfolio — Sac Noir *Three.js, WebGL, React*

- Engineered a luxury 3D web experience with GLB model rendering, custom GLSL shaders, and post-processing effects.

Handwritten Digit Recognition *Python, TensorFlow, Keras, CNN*

- Designed and trained a CNN on the MNIST dataset achieving 98% classification accuracy.

CERTIFICATIONS

- Frontend Development Assessment — ZeTheta Algorithms (built production-grade stock screener project)
- Front-End Software Engineering — SkyScanner (Job Simulation)
- Data Analytics Job Simulation — Deloitte Australia
